Partners

Parents Engage project was born from a partnership composed by seven organisations from Netherlands, Germany, Greece, Italy, Cyprus, Turkey.

We work together to reinforce teachers' skills in fostering productive relations with migrant and refugee families, supporting migrant and refugee parents to be involved at their children's schools, improving education and supporting migrant and refugee children in primary and secondary education.

Objectives

To capitalise on the experiential knowledge of CSOs

working with migrants and refugees by researching and evaluating their relevant practices in inclusive school education

To provide evidence-based teacher training

for enabling teachers to strengthen parental engagement at school so as to improve the academic performance of children and avoid Early school leaving

To reach out migrant and refugee parents directly

providing tailored support materials for increasing their school engagement.

Expected impact

Strengthening the skills of teachers in promoting productive relationships with families of pupils with a migrant background

Greater involvement of foreign parents in the education of their sons and daughters

Improvement of the educational offer for pupils with a migrant background
