

## Building bridges between schools and migrant and refugee parents

### *The Project*

The ParentsEngage project has achieved a new milestone with the launch of its application entirely dedicated to parents with a migratory background. This innovative app aims to simplify the integration process by providing a wide range of easily downloadable resources and project results.

Within the app, there is a clear map of national processes related to migration, offering crucial information on permits, certificates, and specialized centers that handle requests. This constitutes indispensable support for parents facing the bureaucratic complexities of a new country.

A distinctive element of this app is its focus on schools. Parents with migratory experiences often find themselves navigating an unfamiliar educational system. The ParentsEngage app provides immediate answers to common questions related to education, offering basic information to facilitate parents' integration into this process.

Users can explore a rich collection of activities specifically designed for parents, children, and families. This aspect of the platform reinforces the idea of ParentsEngage as an incubator of connections and social support, providing opportunities for active participation in the community.

In conclusion, the ParentsEngage app is not just an informative tool but a true companion for migrant parents. It offers a detailed guide through the intricacies of migration and education, creating an inclusive and welcoming environment. With this latest achievement, ParentsEngage adds another piece to the mosaic created to achieve its goal: building bridges that connect communities and improve the lives of migrant families.

# Next steps

The Parents Engage partnership will convene on January 25, 2024, for an International Conference, open to anyone interested, which will take place at the THON Hotel EU in Brussels, Belgium. The event promises to be an exceptional opportunity to explore and delve into the crucial theme of collaboration with migrant families in the school context.

In addition to presenting all the produced results, there will also be the opportunity to participate in interactive sessions and workshops dedicated to working with migrant families.

To join this stimulating event, we invite you to register your attendance by completing the brief registration form available at the following link: [Registration form](#)

## Partners

ParentsEngage is a project co-funded by the Erasmus+ Programme: Erasmus+ KA2 – DG Erasmus+, Cooperation partnerships in school education. The project is implemented in six Countries and it involves seven organisations as partners:
